### 2. Instructor Evaluation

2.11) Please comment on the instructor's strong points.

- Extremely personable, passionate, and cares about the improvement of the students. Opened my eyes to jazz and dance in general. Always helpful and gives you the instruction you need to improve
- Funny, engaging, amazing dancer and really made me feel comfortable trying and looking stupid which I was really worried about.
- Great personality, very motivational
- I had so much fun in her class. I really enjoyed myself because I didn't feel like anyone was judging me. It was a really supportive environment where I never needed to feel self conscious. I think this is really important in a dance class and I think this was the most comfortable I have ever felt in a dance class.
- Respectable and helpful in showing the class the right way we should be doing things. Let the class be creative and think on the spot. Was consistently positive.
- Sarah had an amazing attitude and always made dance class fun I would definitely like to take a class with her again.
- Sarah is enthusiastic, engaging, and overall just amazing. She is a phenomenal instructor, and made class not just a learning environment, but an incredibly fun environment as well. I 100% believe that Sarah would add tremendous long term value to the CP Dance Department.
- Sarah is my role model
- Sarah is the sweetest and always gets the class pumped up and excited to dance!
- Sarah was so friendly and welcoming, I was very scared to be judged by my dancing but she really fostered an environment where I could move with confidence despite my lack of experience.
- Takes suggestions well, very relatable, fun and engaging class.
- Very good at evaluating individuals effectively and constructively
- Very good at pushing her students to do better  
Corrects students on mistakes
